President of Inaugural Programme Professor Maqdoom Fardoglu, stimulated the audience with his very influential speech. He elaborated our culture with scientific facts in a very interesting manner.

Professor Munish Sharma delivered his Key Note address on genetic and molecular basis of sustainable development. He discussed various scientific issues related to origin and evolution of life as well as human sustenance giving interesting examples related to natural phenomena.

Professor Sanjay Harke, delivered lecture on innovation in agricultural biotechnology, Agricultural Biotechnology is the use of new scientific techniques based on our understanding of DNA to improve crops and livestock that are not possible with conventional breeding alone. Dr Harke sir in his talk explained the benefits of innovation in agricultural biotechnology. Innovation can provide an opportunity for agriculture producers to increase productivity while better managing natural resources. This helps to ensure long-term viability and reduce the negative environmental impacts of production, such as pollutants and waste. Today, using genetic engineering, scientists are able to produce plants with enhanced nutritional content, desired texture, color, flavor, growing season, yield, impart disease resistance, and improve other properties of production crops. Participants actively participated in the discussion get the clarification of agricultural technology.

Dr. Nazimuddin Chisti sir delivered lecture on innovation and challenges in science and technology. He talked about Innovations in Science & Technology (IST) is designed for students who are interested in learning about diverse topics in the STEM fields and applying scientific principles to real-world applications. There would be no progress without invention, and with no innovation, there can be no progress. If people and technology don't progress, they will quickly become irrelevant and outdated in a larger scheme of things.

All the technical sessions were highly informative and interactive. Participants actively participated in the technical as well as oral sessions and cleared their doubts and queries. The oral sessions and poster presentation were arranged in well manner. Presenters were asked questions by the experts and other
