

7.1.2

The Institution has facilities and initiatives for

1. **Alternate sources of energy and energy conservation measures**
2. **Management of the various types of degradable and nondegradable waste**
3. **Water conservation**
4. **Green campus initiatives**
5. **Disabled-friendly, barrier free environment**

- **Sensor Based energy Conservation**

This in, energy sources, energy monitoring, lighting, appliance, natural gas and vehicles. Energy use is clearly an important aspect of campus sustainability and thus requires no explanation for its inclusion in the assessment.

a) Observations

Energy source utilized by all the departments is electricity only. Total energy consumption is determined as 735 KWH/Month by major energy consuming equipments.

All the departments are equipped with CFL and LED lamps. Approximately 15 CFLs (Capacity) and 22 LED are count during survey. Equipments like Computers are used with power saving mode. In science department like Physics, Chemistry, Mathematics, Botany, Zoology, Electronics, Computer Science and B.Voc electricity was shut down after occupancy time is one of green practices for energy conservation. Institute is having capacity is used during power cuts.

b) Recommendations

- Support renewable and carbon-neutral electricity options on any energy purchasing consortium, with the aim of supplying all college properties with electricity that can be attributed or renewable and carbon-neutral sources.
- Appreciate that it is preferable to purchase electricity from company that invests in new sources -neutral electricity.
- LED lamps of CFL.
