CODE OF CONDUCT

Code of Professional Ethics:

The Kohinoor Arts Commerce and Science Collegehas developed a Code of Professional Ethics which is consistent with the guidelines of Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, Maharashtra State Government and University Grants Commission New, Delhi regulation 2018.

❖ NON-TEACHING STAFF

"Code of Conduct" has been prepared to acknowledge the staff about the rules and regulations that exist in the College. It is expected that all the teaching, and non-teaching staff should strictly adhere to the rules and regulations and code of conduct mentioned in this document. The Management reserves the right to change/modify the policies and code of conduct and when deemed to be changed.

A code of conduct for college should be committed to a larger good of all its stakeholders like students, teachers, principal, administration and the management. Since college is the institute committed for the all round development of a student, it is necessary to design a code of conduct. Students of the college shape the future of the nation. College is the center shaping level hearted and level headed citizens of the society. The code of conduct of the college therefore should help students to reach to the heights of knowledge and character. All the abovecited stakeholders of the college need to behave within certain parameters to achieve the general good of all. It is a kind of ethical outline of how all the stakeholders should behave. It provides some guidelines for handling issues like harassment, safety and conflict of interests. The code is a general idea of acceptable behaviour and guideline to avoid any form of unacceptable behaviour and enforce the behaviour, which will direct and cause the smooth functioning and development of the college.

Educational Managements in a country like India had always been inspired by the dreams of Mahatma Gandhi, Jawaharlal Nehru, Rajarshi Shahu Maharaj, Jyotiba Phule, Dr. Babasaheb Ambedkar Maulana Azad, Savitibai Phuleand Shaikh Fatema. Such devoted works of the social reformers and leaders with social approach have done substantial work in the field of education, especially in a state like Maharashtra. But with the change of time and emergence of globalization the educational institutes have become open market to the world. In order to cope with the demands of the changing times, the expectations from the educational managements have changed a lot. Being one of the leading stakeholders of the educational process, a need of definite code of conduct for the management has emerged.
