Best Practice 01

College Helmet Campaign

Title of the practice

“College Helmet Campaign “

Objective

1. To create awareness about helmet wearing.
2. To understand safety of head and brain during the accident.

The Context:

In College Campus College organized college **Helmet Campaign** for student every year. Safety helmets (also known as hard hats) can prevent or minimize injuries to the head and brain protecting against falling objects or debris, impact with other objects, electric shock and rain.

“Symbolic Helmet Day “On May 24

In an effort to promote helmet usage and increase road safety awareness, various district will be will be celebrating “Symbolic Helmet Day” on May 24. The Initiative encourages government officers and employees who already regularly wear helmets, to public awareness about the importance of helmet use.

“International Helmet Awareness Day 25 Jan.2023 “

The aim of the international helmet Awareness Day is to educate as many equestrians as possible about helmet and safety.

The practice:

We have selected one acre of barren land adjacent to the college campus. First we built a wall for protection and clean the area then under the guidance of principal, our college students dug 80 pits for tree plantation at certain distance of suitable size. We brought humus soil and manure from outside. The pits dug by students were filled by this humus soil and manure. For plantation we brought sapling of trees of Neem, Pipal, Banyan, Gulmohar, Amla etc. from Social Forest Nursery- Pankheda. Tree plantation programme was organized on in presence of College Management Council, Principal, Staff and students. For protection and care taker **Mr. Warpe Santosh** was appointed by principal.

During the last five years college has planted different varieties of plants species at different intervals in the campus with the help of staff and students NSS. Present green campus is the outcome of our sincere efforts under the guidance of Principal

All staff members create environment awareness among the students in the campus to propagate green campaign successfully.

Evidences of success:

All the sapling trees were grown and survived successfully and attended average height of 6 feet's. The entire land of this area is covered by herbs, shrubs and bushes. Increased biodiversity was observed. Our students are taking efforts for survival of plants mostly **Mr. Warpe Santosh** is care taking more efforts by regular watering the plants and regular care vigilance of plants.

The green campus developed by college /Institute helps not only to save environment but also add beauty of campus, besides providing shade to our students and also used for scientific studies. College campus is enriched with varieties plant species.

Principal, Staff and students. For protection and care taker was appointed by principal.

Best Practice of the Institution

Best Practice-02

1. Title of the Practice-

“Tree plantation”

2. Goal-

A remarkable feature of the college is tree plantation in College premises for beautification of Campus.

2. Objectives-

The prime Objective of the Tree plantation

1. To Create Healthy Atmosphere
2. To Control Noise and air pollution.
3. To make premises eco-friendly.
4. To Create Oxygen Bar.
5. To Create Environmental awareness among the Students.

The Context-

The survival of human being depends mainly on the survival of trees and forest. Trees are helping us in immensely important ways. Trees plays significant role in maintain equilibrium of the environment, many ecological process. Besides trees have social, spiritual and medical significant work.

According to national forest policy forest cover should be 33 of the total land but in India it is nearly about 24. Tree plantation and conservation is the best solution to fight against the global warming to achieve the goal, our institute initiated this activity from last five years plans have important role in Climate change. Many efforts have been taken by Government of Maharashtra through social forest department, some NGOs and all educational institutes through NSS. And college staff.

The Practice-

We have selected one acre of barren land adjacent to the college campus. First we built fencing wall for protection and clean the area then under the guidance of principal, our college students dug 80 pits for tree plantation at certain distance of suitable size. We brought human soil and manure. For plantation we brought sapling of trees of Neem, Pipal, Gulmohar, Amla, guava, mango, ashoka, Pama etc. Tree plantation program was organized in presence of college Management council, staff, and students. For protection and care taker Mr. Warpe Santosh was appointed by principal.

Evidences of success:

All the sapling trees were grown and survived successfully and attained average height of 6 feet's. The entire land of this area is covered by herbs, shrubs and bushes. Increased biodiversity was observed. Our students are taking efforts for survival of plants mostly **Mr. Warpe Santosh** is taking more efforts by regular watering the plants and regular care vigilance of plants.
